

# Apprenticeship & Craft Training You Can Depend On

**WTCABC offers online apprenticeship training in 12 trades for only \$1,500 per level.**

## **Why Online Training?**

- **Flexible Time Management**

**Deliver training for workers who are on call or working out of town.**

In today's businesses everyone has multiple responsibilities and time must be used wisely. Economic and demographic shifts have fueled the growth of telecommuting, job-sharing, and flextime. E-Learning can help!

- **Increased Productivity**

**An educated workforce is the main driver of productivity.**

E-learning and training increases employees knowledge and skill levels. As they become better at their jobs, they work more safely, reduce waste, and are more productive and efficient. An educated, skilled workforce is the main driver to profitability of today's construction industry.

- **Retain your best workers**

**Provide employees with a powerful incentive to stay and grow your co.**

Education has become a critical part for both a company's and worker's portfolio. Web-based training that expands an individuals education by earning certificates and important job skills become powerful incentives for an employee to stay.

**Enroll students any time.**

No need to wait for the beginning of the semester.

Save students commuting time and enhanced learning.
